EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: On page 1, line 7 of the specification, insert the following after "June 22, 1999": ", now U.S. Patent No. 6,488,581.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the hand written drawings have poor writing and lines and are not capable of satisfactory reproduction characteristics as required by 37 CFR 1.84(l). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-14 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record lacks in disclosing a mass storage data protection system in a gaming machine in which there is a mass storage device command latch for storing commands from a disk controller and a comparator command register in communication with the register includes ATA write commands and issues a fault when the mass storage command latch stores a command matching an ATA command from the comparator command register. Sugai merely discloses protecting RAM not a mass storage device and compares addresses not commands.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

It has been noted that claims 1, 2, 6-8, 12 and 13 have been amended.

Response to Arguments

Applicant's arguments, filed August 27, 2004, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn and they have been allowed due to the amended claim language.

Terminal Disclaimer

The terminal disclaimer filed on August 4, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,488,581 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Conclusion
